Dear Parents and Guardians,

i-Ready is an online program for mathematics that will help your child's teacher determine your child's needs, personalize their learning, and monitor progress throughout the school year. i-Ready allows the teacher to meet your child exactly where they are and provides data to increase your child's learning gains. i-Ready consists of two parts: Diagnostic and Instruction.

- The i-Ready Diagnostic is an adaptive assessment that adjusts its questions to suit your child's needs. Each item a student sees is individualized based on their answer to the previous question. For example, a series of correct answers will result in slightly harder questions, while a series of incorrect answers will yield slightly easier questions.
- i-Ready Instruction provides students with lessons based on their individual skill level and needs, so your child can learn at a pace that is just right for them. These lessons are fun and interactive to keep your child engaged as they learn.

We recently completed our 2nd Round of diagnostic testing and encourage you to have your child go on at home. To access the website, students must first go to www.clever.com/in/southamboy. From there, the students will login with the user name firstname.lastname@sapublicschools.com and they should know their password.

We look forward to sharing *i-Ready* reports and celebrating your child's accomplishments throughout the school year. If you have any questions, please do not hesitate to contact the school or me.

Sincerely,

Dr. Martin Gurczeski
