Dear Parents/Guardians:

There is a Tik Tok challenge called "the Skull Breaker Challenge" or the "Tripping Jump Challenge". I wanted to again bring something dangerous to your attention that is happening in the world in which we live. This challenge is called the "Skull Breaker Challenge" or "Tripping Jump Challenge". If you don't know what this is, do a quick Google Search. If you don't have time to search, here are the basic details:

- There are typically three people standing in a line.
- The victim is tricked into thinking that they are recording a video of a jump.
- There is a camera set-up to record. When the middle person jumps, each end person kicks the legs out from under the middle person so that he/she falls flat. This all happens on video and is then posted to social media.
- This is very much like what used to happen in my younger days when children would pull out a chair from a student.
- It is different in that the middle jumper is hitting his/her head on the ground knocking them unconscious.

All of our administrators are aware of this social media danger, but I wanted to ensure you knew as well. Children can become seriously hurt. As always, thank you for your support. Working together we can keep our children as safe as possible.

Sincerely,
Sean Dunphy
